

“I saw the flyer for the program at City Hall and said  
**‘That’s got to be a good deal!’”**

“Buying an older home, I really appreciate the professional input on what changes will have the biggest impact. Now I have a very clear idea about where I need to spend money now and what can wait—and the whole assessment was free!”

— Jerry Crain

## Jerry Crain

### ABOUT THE JERRY’S HOME:

- Single-story wood frame home, built in 1873
- Just purchased by Jerry

### JERRY’S ENERGY ISSUES:

- Identifying which energy investments should be highest priority as he settles in his new home
- Checking for safety issues around furnace and hot water heater
- Getting professional input he can trust on the condition of the home’s energy systems

### WHAT THE PROGRAM DID FOR JERRY:

#### LEVEL ONE AUDIT

- Complete review of home’s energy use and loss
- Suggestions on opportunities to save energy with minor adjustments or repairs to existing furnace and hot water heater
- Advice on maintenance issues that will improve safety and comfort
- New low-flow shower heads and CFL light bulbs installed, free of charge
