

“We can’t say enough about this program and what it has done to **make our home more comfortable!**”

“The team conducted the tests, showed us the results and helped us make the right decision for our home and our budget without ever pressuring us. The results have been terrific. We highly recommend every home in Wyandotte take advantage of what our city’s offering!”

—Mary McFarlane

Mary McFarlane

ABOUT THE MCFARLANE’S HOME:

- Colonial, 1,500 square feet
- Built around 1940

THEIR ENERGY ISSUES:

- High energy bills caused by air leakage
- Draftiness during winter months
- “The house just never felt warm enough. We’d already replaced the windows and put in new insulation. But no matter where we set the thermostat, the house just never felt warm.”

THE IMPROVEMENTS MADE:

- New furnace and air conditioner
- Re-banding of entire house
- New fireplace damper

THE BENEFITS:

- \$1,200 In rebates
- Great advice to improve the efficiency of their home
- “We’ve increased the value of our home and more importantly, we’re warmer!”
